

# PERRY-HOUSTON COUNTY AIRPORT UPDATE—FEBRUARY, 2018

FEBRUARY, 2018

### Runway and taxiway lights back to 100%.

Our runway and taxiway lights were the subject of an intensive repair/replacement effort during December and January. Bulbs and fixtures that have been inoperative or damaged have been repaired or replaced. We hope our night-time aviators are satisfied with our effort.

## Don't despair..Spring is coming

### NO SMOKING IN HANGARS

"No Smoking" signs have been erected at all hangars and airport policy prohibits smoking within 50 feet of the hangars and fuel trucks. The designated smoking area is the gazebo between the terminal and the aircraft parking section, and the west side of the terminal. We appreciate your cooperation with this policy.

NO SMOKING

### A Temporary Open-T Hangar

An open T-Hangar has been designated as a temporary rental for transient aircraft. It is available for daily use, with a reservation, for anyone needing a day or overnight parking for their aircraft.

Call the terminal for reservation.

*The new Perry-Houston County Airport logo will be made public on February 6th. A supplement to our February Update will be published on the 6th and emailed to our PXE family. Check your email or pick up a copy at PXE.*

#### Special points of interest:

### New Appointment to Authority

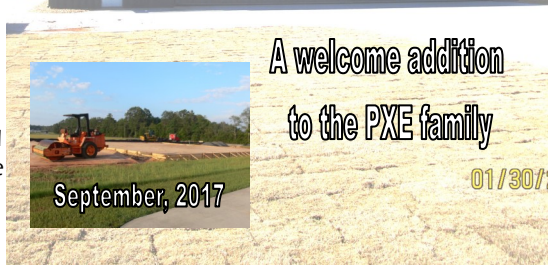

Geoff Burkhardt, CEO of the Guardian Center, was appointed to the Perry-Houston County Airport Authority at the January meeting at PXE. Geoff is a welcome addition to the Authority and we send a warm PXE welcome to him. He has been an enthusiastic airport booster since bringing the Guardian Center to Houston County, and was instrumental in hosting the airport "branding" seminar last year.
