

# PERRY-HOUSTON COUNTY AIRPORT UPDATE—JANUARY 2017

## January 2017

### SWEEPERS ARE COMING!!!

A company will be on the airport to vacuum the debris that has accumulated over the summer. Blowing or sweeping out the open T-hangars (or your closed hangar) might be to your advantage if you like a nice and neat hangar.

### 172 OWNERS

Not flying much?? Perry Air may have a way to help pay for your fixed costs such as hangar, taxes, annuals, etc. Contact Dale at (478)477-623 for details on lease-back opportunities!

**THANK YOU** for making our Christmas Dinner enjoyable. We had quite a few dinner guests on a warm and balmy evening. No snow or ice, but plenty of food and fellowship.

NEXT PARTY- 4TH OF JULY

- FAA at PXE
- Christmas Dinner
- January Special Days
- Blackhawk Helicopter Exercises
- Rain
- Welcome
- Conference Room Use

**A warm PXE welcome to Wayne Lowe** who will be occupying the former GSP hangar at the north end of the field. We are sure you'll find a hospitable and friendly group at your new home.

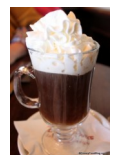

Please be mindful of the freshly smoothed and covered grounds between the hangars and Myrtle Field Road. Due to the recent rains the soil is soft and can easily be furrowed by a heavy car or truck.

### January Special Days

- 1st: New Years Day
- 1st: National Hangover Day
- 6th: National Cuddle-up Day
- 16th: MLK, Jr. Day
- 21st: National Hugging Day
- 25th: National Irish Coffee Day

### FINALLY!! SOME RAIN

With less than an inch in both September and October, November/December gave us a little relief with a couple of inches and we were blessed with some wet weather during December. Wet foggy weather is always a mixed blessing. Recreational flying suffers a bit when the weather gets rough, but Mother Nature surely knows best.

**Blackhawk helicopter exercises during December.** The exercises were held over a three-day period. The Skyvan (pictured last month) dropped parachutists during November and early December.
